Hi Sabrina:

This is to let you know about a reference item regarding the Cement Creek HRS package. In the copy of Reference 6 (ARR) we received on CD, the document is in two parts and the second part (476 pages long) is not paginated. This is pretty important since, of course, it is the reference cited for the analytical data used to support the score.

We recommend that this be addressed as soon as possible to avoid holding up the review. Please let me know if you have any questions. Thanks very much.
